

About academy: European Academy of Hair Design and Beauty:

Hair cuts and hair styles are two different things. If you want to learn to cut hair, go to a barber school. But if you want to learn to be a skilled stylist, come to European Academy of Hair Design and Beauty. European trained hair stylists are rated the best in the world as they lead at any World Hairdressing Championship and various competitions around the world. Now you have the opportunity to become one of them even though you would complete your training in Canada. Our academy is based on the best European schools' traditions in stylist training and you will gain your knowledge from the most experienced and best known European instructors! All our instructors have many years of educational experience, have competed for their countries at Hairdressing competitions and have been awarded various prestigious awards! They have been discovered leading the shows and presentations at various hairs shows across Canada and were invited to join the staff of European Academy of Hair Design and Beauty. Your skills will be definitely developed in their hands and your talent will blossom. Our team will make sure you feel confident using your knowledge of facial structures, shapes, skin tones, new products, styles and tendencies to accommodate your clients' individual characteristics. If style is your passion and you have the drive to succeed then European Academy of Hair Design and Beauty the right place for you.

For creative and talented!

Do you have drive, vision and a huge passion for hairdressing as well as a hunger to learn more from Education leaders? If the answer is YES then welcome to European Academy of Hair Design and Beauty!

Nurturing hairdressing talent is fundamental to European Academy of Hair Design and Beauty so get ready to be inspired at our academy. Here our award winning European Artistic Team will personally guide you through our extensive range of training courses and pass on their highest standard of teaching and expertise to you.

Our European trained team represents an abundance of originality, resource and technical ability that is guaranteed to excite. Fashion is without doubt the key influence in everything we do. Traveling around the world staging master classes, hair shows and seminars we not only have extensive experience but also have life-long love and passion for hairdressing. Spending time with us at the academy ensures that you will also be shaping the future of hairdressing.

If you want to push your boundaries and be the best then let us be your guide. Natural progression is a way to go! At European Academy of Hair Design and Beauty we firmly believe that our education program provides the best organic process of modular training. With this in mind, we have put it all together in a comprehensive "Beginner to Advanced" career route.

This means that whether you are a complete beginner bursting with enthusiasm and potential, or you are already an experienced hairdresser looking for inspiration and guidance to take your talent to the next level, all you have to do is select your entry level and pick the relevant components that most interest you at advanced level.

This way you can devise your own personal training plan and work through it at your own pace. The whole program is planned in such way that it can be completed in 18 months for freshmen, in 9 months for newcomers with previous hairdressing experience who want to get ready for a licensing exam and 4 months for experienced licensed hairdressers who want to upgrade their skills.
